

Nombre _____

Comparando Números de Tres Dígitos: Usando Signos

Calentamiento: ¡A Moverse!

Mira los problemas a continuación. Dibuja los símbolos de $>$, $<$, o $=$ con los brazos para mostrar las respuestas.

134 ○ 134
299 ○ 689

545 ○ 267
484 ○ 483

Escribe $>$, $<$, o $=$ para comparar cada par de números.

321 ○ 416

148 ○ 149

650 ○ 650

910 ○ 280

387 ○ 531

207 ○ 717

626 ○ 814

589 ○ 111

395 ○ 395

419 ○ 951

132 ○ 512

789 ○ 299

880 ○ 380

407 ○ 407

246 ○ 624

Nombre _____

Comparando Números de Tres Dígitos: Recortando y Pegando Símbolos

Recorta los símbolos. Pégalos en las casillas para comparar cada par de números.

482 777

390 118

205 502

395 676

112 112

455 454

672 862

324 274

987 221

Calentamiento: ¡A Moverse!

Mira los problemas a continuación. Dibuja los símbolos de $>$ o $<$ con las piernas para mostrar las respuestas.

877 342

319 710

604 112

525 520

Nombre _____

Comparando Números de Tres Dígitos: Escribiendo Números

¡Los caimanes tienen hambre! Quieren comerse los números mayores. Escribe un número de tres dígitos al lado de cada caimán.

Calentamiento: ¡A Moverse!

Mira los problemas a continuación. Mueve los brazos en la dirección del número mayor.

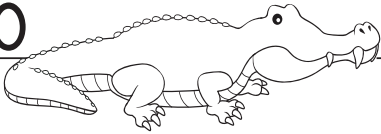

123 ○ 321

880 ○ 623

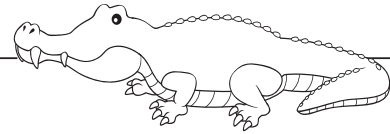

556 ○ 337

497 ○ 385

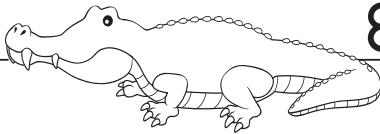

560

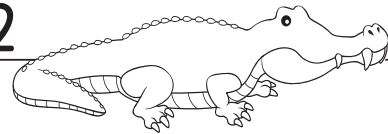

432

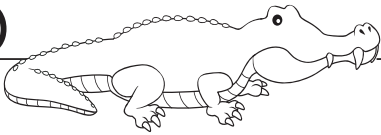

807

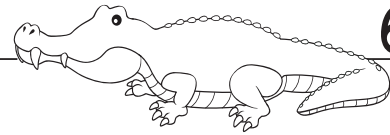

912

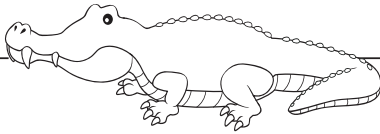

110

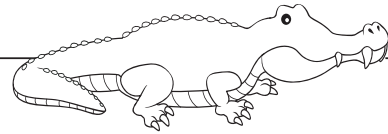

642

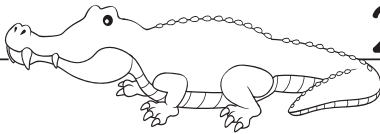

204

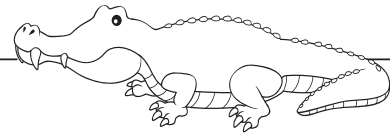

743

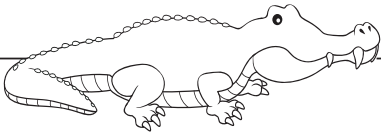

248

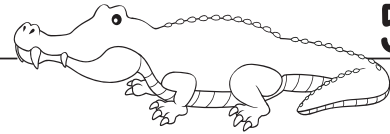

319

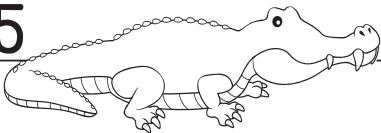

425

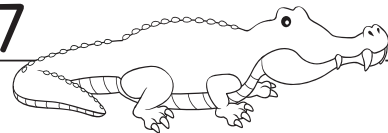

588

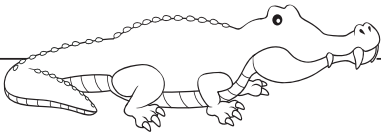

375

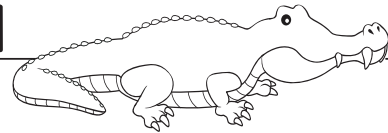

767

313

411

Nombre _____

Comparando Números de Tres Dígitos: Expresiones Verdaderas

Calentamiento: ¡A Moverse!

Mira los problemas a continuación. Dibuja los símbolos de $>$, $<$, o $=$ con los brazos para mostrar las respuestas.

115 ○ 114

303 ○ 303

745 ○ 587

600 ○ 900

Escribe un número de tres dígitos en cada casilla de forma que las expresiones sean verdaderas.

	$>$

2 - Math (Number & Operations in Base Ten) Comparing Three-Digit Numbers Using Symbols

Comparing Three-Digit Numbers: Using Symbols

Warm Up: Students should show the following symbols with their arms: (from top to bottom and left to right) $=$, $>$, $<$, $>$.

$321 < 416$, $148 < 149$, $650 = 650$, $910 > 280$, $387 < 531$, $207 < 717$, $626 < 814$, $589 > 111$, $395 = 395$, $419 < 951$, $132 < 512$, $789 > 299$, $880 > 380$, $407 = 407$, $246 < 624$

Comparing Three-Digit Numbers: Cutting and Pasting Symbols

Warm Up: Students should show the following symbols with their legs: (from top to bottom and left to right) $>$, $<$, $>$, $>$.

$482 < 777$, $390 > 118$, $205 < 502$, $395 < 676$, $112 = 112$, $455 > 454$, $672 < 862$, $324 > 274$, $987 > 221$

Comparing Three-Digit Numbers: Writing Numbers

Warm Up: Students should snap their arms in the following ways: (from top to bottom and left to right) $<$, $>$, $>$, $>$.

Students should write a three-digit number greater than 560.

Students should write a three-digit number less than 432.

Students should write a three-digit number greater than 807.

Students should write a three-digit number greater than 912.

Students should write a three-digit number greater than 110.

Students should write a three-digit number greater than 642.

Students should write a three-digit number less than 204.

Students should write a three-digit number less than 743.

Students should write a three-digit number greater than 248.

Students should write a three-digit number less than 319.

Students should write a three-digit number less than 425.

Students should write a three-digit number greater than 588.

Students should write a three-digit number greater than 375.

Students should write a three-digit number greater than 767.

Students should write a three-digit number less than 313.

Students should write a three-digit number greater than 411.

Comparing Three-Digit Numbers: True Expressions

Warm Up: Students should show the following symbols with their arms: (from top to bottom and left to right) $>$, $> =$, $<$.

Answers will vary.
